"Empowering Legal Aid  
Organizations to Serve  
50% More Clients"

# 92% of Civil Legal Problems Go Unsolved— We Can't Lawyer Our Way Out

# 92%

of civil legal problems receive  
inadequate or no help

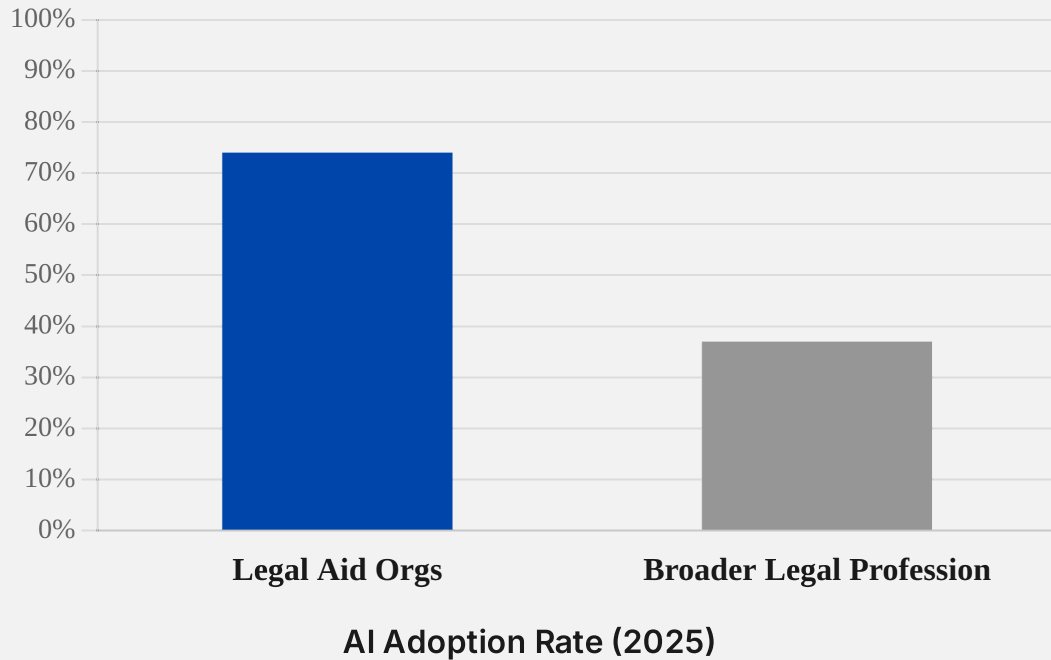

- Over **60 million Americans** are effectively priced out of the justice system.
- Legal aid organizations meet only **24% of total demand**.
- U.S. ranks **107th of 142 countries** in affordability and accessibility of civil justice.

*"We will never be able to 'lawyer ourselves' out of this access-to-justice crisis."*

— Scheree Gilchrist, Chief Innovation Officer, Legal Aid of North Carolina

# Legal Aid Organizations Adopt AI at 2X the Rate of Big Law

**90%**

of legal aid professionals want to use AI to serve more clients

**88%**

believe AI can help address the access to justice gap

**17%**

estimate AI could help them serve **50% or more** additional clients

Source: Everlaw, NLADA, Paladin, LawSites Survey (2025) — 112 legal aid professionals

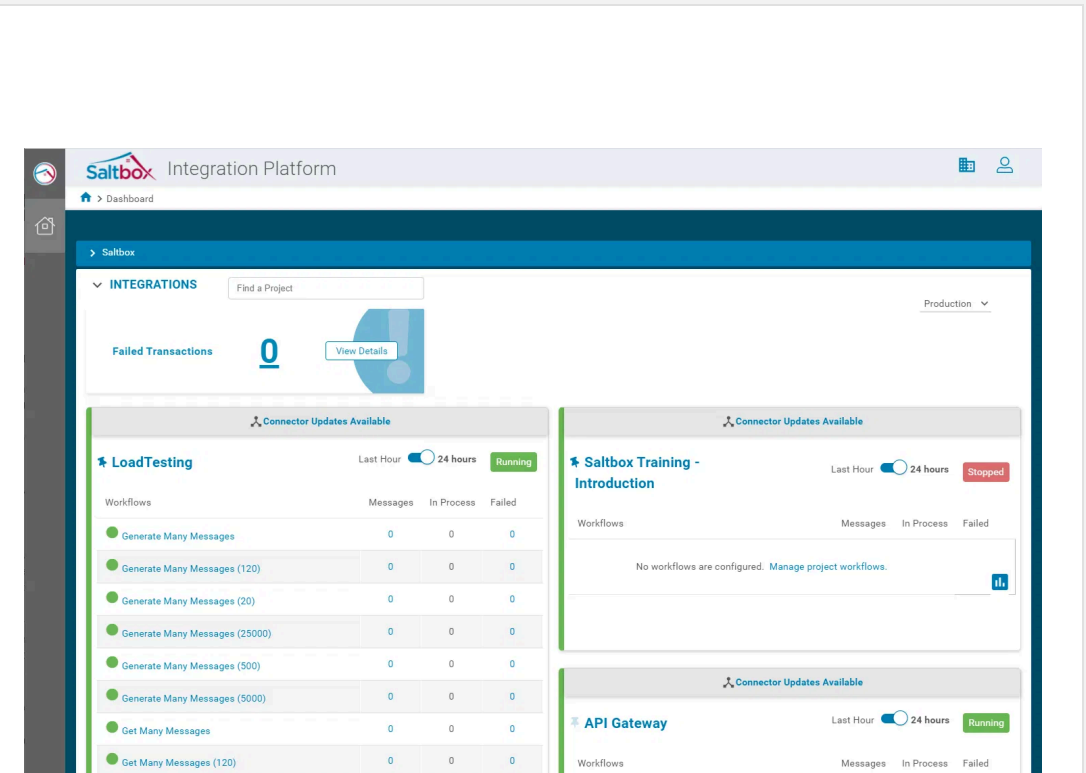

# Secure Justice AI Drowning in Disconnected Point Solutions

- **Fragmented Patchwork:** Tools don't talk to each other, creating data silos.
- **Scattered Knowledge:** Key materials live in isolated databases, internal drives, and static repositories.
- **High Friction:** Attorneys waste hours hunting for answers across pricey, disconnected platforms.
- **Resource Drain:** Require 300+ staff hours or expensive external vendors.

## THE RESULT

Duplicated effort, critical delays, and

The Current Reality: A Tangled Web of Disconnected Tools

# Every Current Offering Leaves Critical Gaps Unfilled

| VENDOR                  | WHAT THEY OFFER                             | WHAT'S MISSING   |
|-------------------------|---|--|
| <b>Paladin</b>          | Pro bono matching & case management         | ✗ No IT infrastructure, cybersecurity, or AI research  |
| <b>Relativity</b>       | Free eDiscovery (requires law firm partner) | ✗ No cybersecurity, governance, or turnkey deployment  |

Secure Justice AI

# ing IT/AI in a Box

The First and Only Comprehensive, Turnkey IT and AI Platform for Legal Aid

## 1. AI-Powered Legal Tools

LAWFIRMAIEXPERT.COM / TRIALLIFT.COM

- Advanced legal research chatbot with RAG (Retrieval-Augmented Generation)
- TrialLift citation validation to combat AI hallucinations
- Source-cited, fact-based answers that attorneys can trust

## 2. Comprehensive Cybersecurity

PREVENT-RANSOMWARE.COM

- Complete IT infrastructure and security framework
- Ransomware protection and data privacy assurance
- Secure cloud hosting and network management

## 3. Integrated AI Governance

COGNIFYSOLUTIONS.AI

- Responsible, ethical AI implementation framework
- Compliance with ABA ethics rules and LSC standards
- Change management and staff training

# Integration Isn't a Feature— It's the Entire Value Proposition

## LSOs Are Not System Integrators

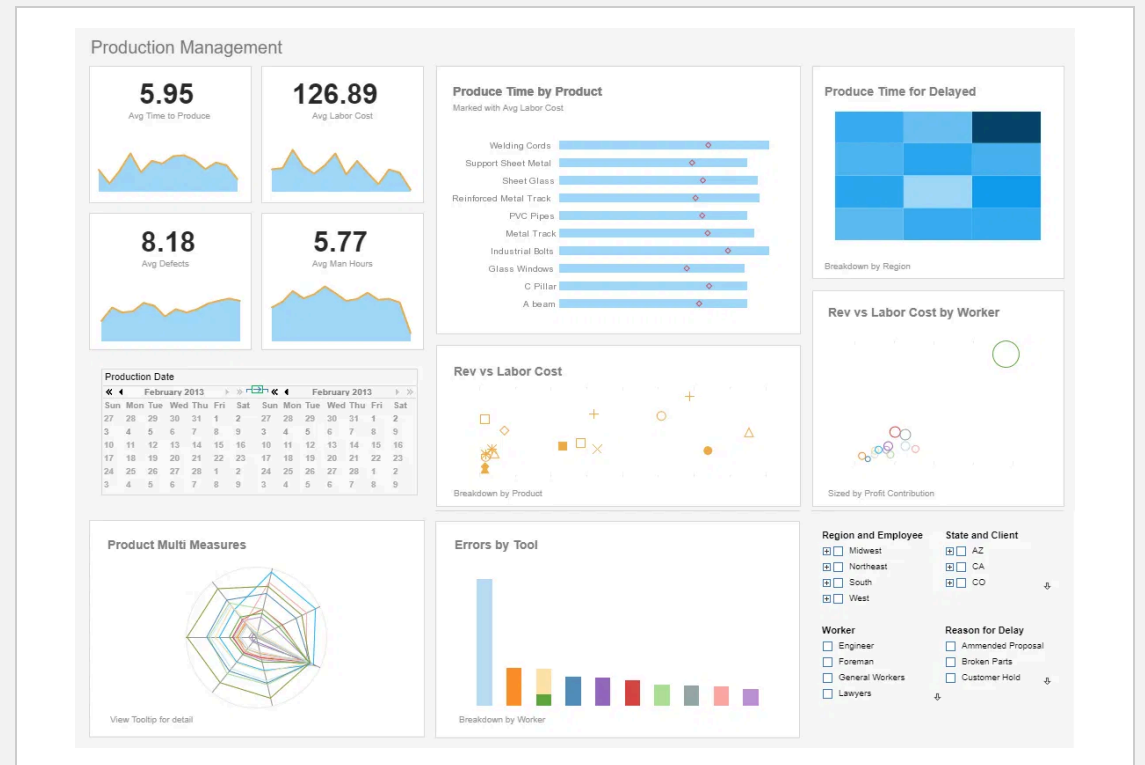

Legal aid organizations lack the time, resources, and technical capacity to connect fragmented tools.

## The Cost of Fragmentation

Disconnected systems create security vulnerabilities, duplicated data entry, and administrative drag.

**Pre-built integration saves 300+ staff hours  
vs. DIY solutions**

Based on Lone Star Juris development metrics

ONE PLATFORM

ONE LOGIN

ONE SUPPORT TEAM

# g Voices Confirm: This is What Legal Aid Needs Now

## Angela Tripp

LSC PROGRAM OFFICER FOR TECHNOLOGY

Manages the TIG program; validated replicability and cost-effectiveness in the Juris case study.

## Adriene Holder

CHIEF ATTORNEY, THE LEGAL AID SOCIETY

Led team that won \$1M Robin Hood AI Poverty Challenge, proving funding viability for AI tools.

## Joanne Sprague

SENIOR DIRECTOR, EVERLAW FOR GOOD

Led survey revealing 74% AI adoption; emphasizes "responsible, ethical implementation at scale."

## Bob Ambrogi

LEGAL TECH JOURNALIST, LAWSITES

Documented the 2X AI adoption rate in legal aid, validating immediate market readiness.

## Kristen Sunday

CO-FOUNDER & CEO, PALADIN

*"These aren't just endorsements—they're the architects of legal aid's technology future."*

# Purpose Tool Achieved This— Imagine What a Complete Platform Can Do

## THE BASELINE: LONE STAR JURIS

---

-  Built AI-powered legal research chatbot using RAG architecture
-  Infrastructure cost: **\$2,000/year** (with nonprofit credits)
-  Development investment: **300 staff hours** over 2 years
-  **Single-purpose tool** requiring internal maintenance

## THE UPGRADE: IT/AI IN A BOX

---

-  **Comprehensive:** Research + Citation Validation + Cybersecurity + Governance
-  **Turnkey:** Zero internal development required (vs. 300 hours)
-  **Standardized:** Ready for rapid replication across 100+ organizations
-  **Integrated:** One platform, one login, one support team

# Legal Aid Organizations to Serve 50% More Clients with the Same Staff

## 01 Automate High-Volume Tasks

Automate initial client intake, document summarization, and legal research.

**Result: 30-50% time savings on administrative work.**

## 02 Eliminate Inefficiencies

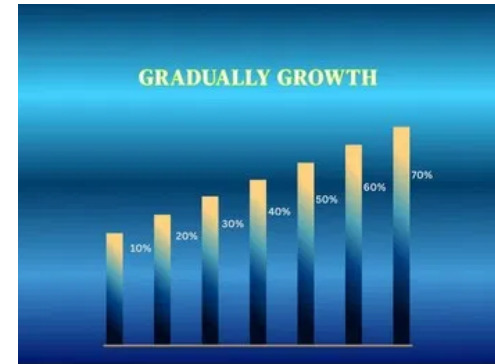

Centralized knowledge hub removes the need to hunt across disconnected platforms.

**Result: Faster case resolution and reduced duplication.**

## 03 Free Attorneys for High-Value Work

Reallocate saved hours to court appearances, direct client advocacy, and complex strategy.

**Result: More clients served, higher quality representation.**

# \$2,000/Year Benchmark While Delivering 10X the Value

## ANNUAL COST STRUCTURE

$$\begin{array}{rclcl}
 \text{Gross Cost} & & \text{Tech Credits} & & \text{Grant Subsidy} & = & \text{Net LSO Cost} \\
 \$5,000 & - & \$1,000 & - & \$2,500 & = & \$1,500
 \end{array}$$

## VALUE COMPARISON

| SOLUTION              | ANNUAL COST              | WHAT YOU GET                      |
|-----------------------|--------------------------|-----------------------------------|
| Lone Star Juris       | \$2,000                  | Chatbot Only                      |
| DIY Approach          | \$19,000+                | 1 Tool + High Labor Cost          |
| <b>IT/AI in a Box</b> | <b>\$2,000 - \$5,000</b> | <b>Chatbot + Cyber + Gov + IT</b> |

## Year Growth Chart RETURN ON INVESTMENT

# 25:1

For every \$1 invested, we generate \$25 in social legal value.

# AI Risk Has a Clear Mitigation Strategy

## Technical Integration

**MITIGATION:** Phased development, extensive testing, and a dedicated technical coordinator.

## Adoption Resistance

**MITIGATION:** Comprehensive training and privacy focus. (Note: 74% current adoption rate suggests low resistance).

## Grant Dependency

**MITIGATION:** Diversified funding sources and a hybrid subscription model to build recurring revenue.

## Competitive Response

**MITIGATION:** First-mover advantage and deep LSC relationships create a defensible moat.

## Cybersecurity Incident

### OUR PHILOSOPHY

"We don't just build technology; we build the safety net that protects it."

Secure Justice AI

# Specialized Vendors, One Unified Vision

## [lawfirmaiexpert.com](http://lawfirmaiexpert.com) / [TrialLift.com](http://TrialLift.com)

AI RESEARCH & VALIDATION

- > AI-powered legal research
- > Citation validation technology
- > Combats AI hallucinations

UNIQUE CAPABILITY

TrialLift citation validation

## [cognifysolutions.ai](http://cognifysolutions.ai)

GOVERNANCE & STRATEGY

- > Responsible AI framework
- > ABA ethics compliance
- > Change management

UNIQUE CAPABILITY

Organizational readiness

## [prevent-ransomware.com](http://prevent-ransomware.com)

CYBERSECURITY & IT

- > Comprehensive security
- > Ransomware protection
- > Secure cloud hosting

UNIQUE CAPABILITY

Legal aid-specific protocols

### WHY THIS MATTERS

No single vendor has all three capabilities. Our consortium brings together complementary expertise that would cost \$100,000+ to assemble

# Success: Key Performance Indicators

We will measure the impact of the IT/AI in a Box pilot and expansion using four primary quantitative metrics aligned with LSC goals.

## — CAPACITY EXPANSION

# +50%

**Increase in clients served per attorney**

Through automation of intake and research tasks.

## — OPERATIONAL EFFICIENCY

# 300 Hrs

**Saved per attorney annually**

Redirected to direct client advocacy and court time.

## — SERVICE QUALITY

# 100%

**Citation Validation Accuracy**

Zero tolerance for AI hallucinations in legal drafts.

## — REPLICATION & SCALE

# 100+

**Organizations by Year 3**

Establishing a new national standard for legal aid IT.

# Transforming Legal Aid

FOR LEGAL AID DIRECTORS

## Become a Pilot Site

Gain early access to the platform and help shape the national standard.

**Target: 5-10 organizations for 2026 launch.**

FOR FUNDERS & FOUNDATIONS

## Fuel the Expansion

Invest in a scalable solution with a proven 25:1 social ROI.

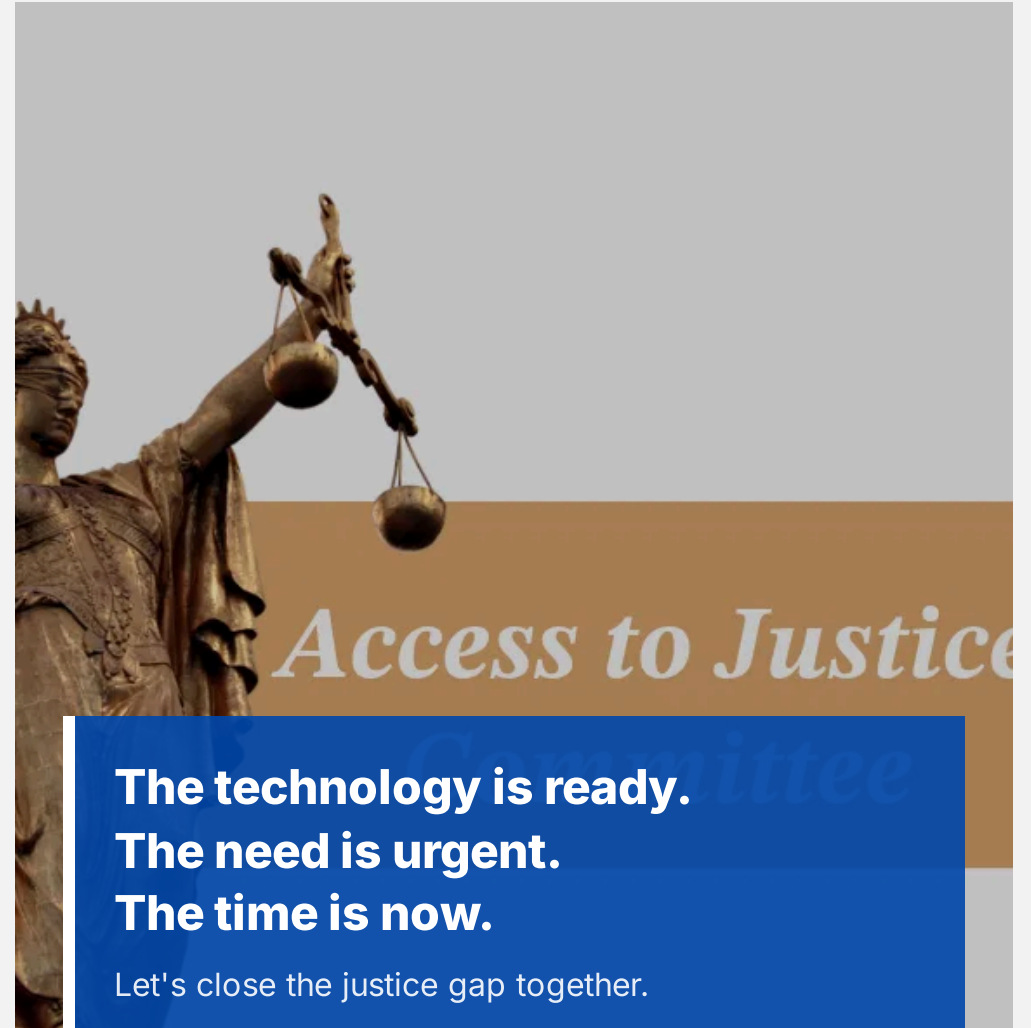

**Goal: \$1.5M to reach 100+ organizations.**

FOR TECHNOLOGY PARTNERS

## Join the Consortium

Contribute specialized tools to the "In a Box" ecosystem.

**Opportunity: Integrate with a national platform.**
